Subject: Requested Response to Commissioners about Order 2013-238

To: contact@psc.sc.gov

CC: shudson@regstaff.sc.gov

Dear Commissioner Howard and All Public Service Commissioners,

Per your request for the parties to Dockets 2005-385-E, 2005-386-E, and 2008-196-E, as a party to two of these dockets, I suggest the public interest is best served by holding discussion on encouraging renewable energy through a series of workshops. If anyone has requested any ex-parte presentations or briefings, all the parties should be invited to attend these as well.

Not only should the parties to these dockets participate in the workshops and any ex-parte briefings, but also the stakeholders, the installers of renewable energy devices and means, should also be invited to be full participants.

I will plan to participate and present either/or an individual and representative of Environmentalists, Inc..

Please let me know which Commissioner takes the lead for renewables at the NARUC meetings either as a committee members or chair.

Also please give us an idea of the proposed timing or scheduling of discussions, workshops, presentations, etc. about these all-important issues.

Yours,

Mel Jenkins
